

Powerful Charging Computers for Lead-based Car / Truck Starter Batteries and Lithium Batteries

DBL800-58-M-LI Lithium-Ion charger

- Intelligent charger for Lithium-Ion as well as Lead Acid/AGM/VRLA Batteries

DBL5500/3W-Li Lithium-Ion charger

- Intelligent charger for Lithium-Ion as well as Lead Acid/Gel/AGM/VRLA Batteries

BM2000 45 Watt battery-charger Desktop-Version

- AC/DC input
- Safety acc. to EN60335
- class II, no protective conductor
- For connection at cigar lighter

EBL70 70 Watt Smart battery chargers

- AC wide range input
- Safety acc. to EN60335
- Class II, no protective earth
- Overload-/Over temperature prot.
- Short circuit-/Reverse polarity protection
- Efficiency >78%

DBL300 300 Watt battery-chargers

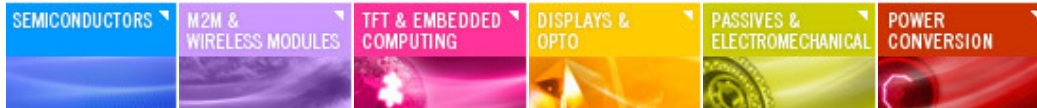

- For lead acid-/AGM-/VRLA batteries
- Extensive protection functions and self-protection functions
- Short circuit and reverse polarity protection

DBL700 700 Watt akku charger

- Intelligent charger for lead acid-/AGM-/VRLA batteries
- Extensive protection functions and self-protection functions
- Short circuit and reverse polarity protection

DBL800 800 Watt charger

- Intelligent charger for motor vehicles starter battery (Lead acid/AGM/Gel/VRLA)
- 100% qualified for motor vehicles on-board electronic system/airbag

DBL800-M 800 Watt, chargers

- Intelligent charger for lead acid-/ AGM-/ VRLA batteries
- 100% on board safety, protection of on-board electrical system/airbag
- Use as battery charger and power supply

DBLW1200 1200 Watt battery charger for Workshop Applications

- Intelligent charger for lead acid-/AGM-/VRLA batteries
- 100% qualified for motor vehicles on-board electronic system / airbag

DBL1200 1200 Watt battery-charger

- For motor vehicles starter battery (lead acid/AGM/Gel/VRLA)
- Use as battery charger, power supply and motor vehicles energy supply in buffer mode

DBL1200 1200 Watt - 3AC battery chargers

- 100% qualified for motor vehicles on-board electronic system / airbag
- Use as battery charger, power supply and motor vehicles energy supply in buffer mode

DBL1600 1600 Watt battery-chargers

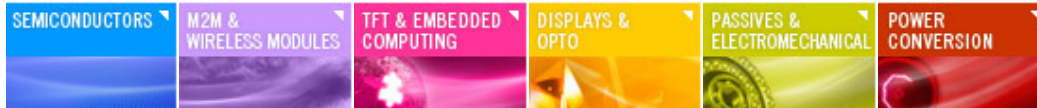

- For motor vehicles starter battery (lead acid/Gel/AGM/VRLA batteries)
- 100% qualified for motor vehicles on-board electronic system / airbag
- Comfortable menu navigation / Charging parameter configurable

DBL1700/3W 1700 Watt, 3AC akku charger

- 100% on board safety, protection of on-board electronic system / airbag
- Use as battery charger and power supply
- Extensive protection functions and self-protection functions

DBL2300/3W 2300 Watt, 3AC charger

- 100% on board safety, protection of on-board electronic system / airbag
- Use as battery charger and power supply
- Extensive protection functions and self-protection functions

DBL2700 2700 Watt chargers

- For lead acid-/AGM-/VRLA batteries
- 100% on board safety, protection of on-board electrical system / airbag
- Comfortable menu navigation / Charging parameter configurable

DBL3000/3W 3000 Watt, 3AC battery charger

- Intelligent charger for motor vehicles starter battery (lead acid/AGM/Gel/VRLA)
- 100% qualified for motor vehicles on board electronic system / airbag

DBL5500/3W 5500 Watt, 3AC battery-charger

- Intelligent charger for motor vehicles starter battery (lead acid/AGM/Gel/VRLA)
- 100% qualified for motor vehicles on board electronic system / airbag

ESM36.610 Solar charging module

compensates the self-discharge when cars are not moved for an extended period of time.
